Starting with Reporting Year 2006, TRI Facilities began reporting NAICS codes, instead of SIC codes, to identify their Primary Business Activities.

#### NAICS Codes for 2004

NAICS CODE	PRIMARY	NAICS DESCRIPTION
331000	YES	

The above information comes from 2004, which was the last year NAICS code data was reported for this facility. The earliest NAICS code data on file for this facility was reported in 1999.

#### SIC Codes for 2004

SIC CODE	PRIMARY	SIC DESCRIPTION
3341	YES	SECONDARY NONFERROUS METALS

The above information comes from 2004, which was the last year SIC code data was reported for this facility. The earliest SIC code data on file for this facility was reported in 1999.

Besides TRI, this facility also does the following:

- handles hazardous waste
- has permits to discharge to water
- has reported air releases under the Clean Air Act

Starting with Reporting Year 2006, TRI Facilities began reporting NAICS codes, instead of SIC codes, to identify their Primary Business Activities.

## NAICS Codes for 2004

NAICS CODE	PRIMARY	NAICS DESCRIPTION
331000	YES	

The above information comes from 2004, which was the last year NAICS code data was reported for this facility. The earliest NAICS code data on file for this facility was reported in 1999.

## SIC Codes for 2004

SIC CODE	PRIMARY	SIC DESCRIPTION
3341	YES	SECONDARY NONFERROUS METALS

The above information comes from 2004, which was the last year SIC code data was reported for this facility. The earliest SIC code data on file for this facility was reported in 1999.

**TRUMBULL LIQUID ASPHALT**

11910 Northwest Saint Helens Road  
PORTLAND, OR 97213

EPA has cleanup profiles for this location under the following cleanup programs. For additional information on these programs, please see below.

**Background**

A number of cleanup programs have evolved over the years to assess and, where necessary, clean up contaminated sites, facilities and properties. Cleanups may be done by EPA, other federal agencies, states or municipalities, companies or parties responsible for the contamination, or other organizations. They may be funded by various levels of government, private parties and other organizations. Cleanup requirements, including reporting requirements, vary by program and sometimes even within a program, and not all information is reported to or available to EPA. In some cases, a particularly piece of property is cleaned by more than one program.

The following profile(s) provide summary information that is available to EPA through mandatory and voluntary reporting under the Brownfields, RCRA Corrective Action, Superfund and Federal Facilities programs as well as links to sites that have been made available to the Agency. Over time, we anticipate more EPA cleanup programs will be covered and more links will be made to information on specific cleanups. We hope that providing this information through a single point of entry will make it easier for you to find information on cleanups of interest to you. We welcome your suggestions on where to link to additional information and how to make this service more useful to our citizens, realtors, businesses and related entities.
